

Round The County 2019

Answer to Competitor's Question about VHF

The RC received the following question:

Question:

Hello, this is Xxx Xxxxxx. Just calling with a question. Just curious on when you say fixed the VHF what your definition of that is and wage. What's the requirement on that? I just need to know which to bring with me to meet the requirement.

Reply:

A fixed VHF would be one mounted "permanently" in the boat with an external antenna. Has much more power and receiving capabilities than a hand held unit. Any radio that satisfies US Sailing SER 3.8.3 would satisfy this requirement
